

# BOW M-TACTICAL

Tactical military headset

Cod. C1046

*The Action Line series, with its products dedicated to softgunners, widens its range with a brand new item, the most complete of all: **BOW M-TACTICAL**.*

**BOW M-TACTICAL** is a tactical military headset, extremely functional and easy to wear, specifically made for an extreme use.

The exclusive innovation of BOW M-TACTICAL is the **pneumatic earphone** that assures an excellent sound quality; thanks to its silicon in-ear plug, ergonomic and finely shaped, the ear won't be isolated and will maintain the acoustic control in the surroundings.

The **boom mike** is adjustable and the **big tactical PTT** is ideal for a practical use, even if worn underneath the clothes.

The practical cable of the PTT can be disconnected, so as to remove the upper part of the BOW M-TACTICAL while leaving the PTT and its cable underneath your clothes.
